

COVID 19 short absence:

If your child is absent they can read - using Oxford Reading Tree Buddy, write a diary, a book review, draw a picture and describe what is happening, use White Rose maths activities, use Times Tables Rockstars, simple maths activities - counting objects, finding shapes around the house etc. You also have the overview of your child's curriculum for this term so you can use the information on that to extend your child's learning whilst not at school.
