Gritting Plan

- The caretaker will assess the need to grit the identified routes into school before 8am.
- The route from the car park to the main entrance will be gritted by 8am.
- The route for the breakfast club will be gritted by 8am.
- The Headteacher and Site Manager will risk assess snow accumulations on all canopies, roofs and other structures.
- Other routes, that are a safe distance away from the building to prevent danger from snow falling from the roof or canopies, will be gritted before gates are opened at 8.40.
- Restrict the number of doors which are used (gable end rather than eaves) and, if necessary, request advice from the Fire Safety Officer.
- No gritting of the vehicle roadway will normally take place.
- See plan below for pathways to be gritted & safe routes.
