

5th March 2020

Dear Parent/Carer,

We are getting daily updates from DfE and Public Health regarding Coronavirus (COVID-19).

Today we have spoken to Public Health and they have reassured us that at this moment in time we have nothing to worry about. They stressed that if someone is tested positive for the virus anyone who has had direct contact with that person will be contacted direct by Public Health and the Local Health Advisors.

If anything changes we will follow the recommendations of Public Health and we will keep you updated immediately.

Yours sincerely,

Mr O Flitcroft
Headteacher
